

# **IOWA PUBLIC TELEVISION**

## **Fiscal Year 2007 Budget Request: Capitals**

### **Replacement of Analog Transmitters**

**\$1,425,000**

This funding would replace the remaining three UHF analog transmitters that not been funded. Transmitters would be replaced at:

KHIN – Red Oak                      \$475,000

KTIN – Fort Dodge                  \$475,000

KYIN – Mason City                  \$475,000

Once the over-the-air transmission at analog sites is shut down, the transmitters would then be put into place as back-up to the digital transmitters at those sites. This would be critical for homeland security issues.

### **Uninterruptible Power Supply (UPS)**

**\$ 315,000**

This funding is for the purchase and installation of a UPS to work in conjunction with the local power service and the generator to supply filtered electricity and synchronous switching between service during power outages and restoration. This will insure continuous operation and minimize equipment damage.
